To Advertisers.—The Vermont Daily Transcript has the largest circulation in St. Albans and in Franklin County, of any daily paper, and is on that account, if no other, the best medium for advertising.

Local Items.

Interesting matter, original or selected, may always be found on the first page.

OUR DAILY.—Those wishing to secure copies of our daily paper can do so at Merrill's and Baker's bookstores, as well as of carriers, and at the office. Copies of our weekly paper may also be had at these places.

OLD STAGERS.—The Chronicle says; the Woodstock Standard claims the palm in stage driving for Mr. William Blingson, that place, he being a stage driver for forty years.—So Mr. Clark of St. Albans, a thirty-two years man, and Mr. Chatwick of Windsor, a thirty-three years driver. Please don't your hats?

But Mr. Standard did you hear, and a noble one we know him to be, ever of him in a coach during the forty years? This is all very well; but how many of these drivers, beside Mr. Clark, are now stage drivers? Mr. Clark, continues in the service, and thus far to be a popular driver "of a coach and four," and to carry Uncle Sam's mail for thirty-two years longer. Mr. Clark does not do it as late—much.

THE MILTONIAN TABLEAUX.—We again desire to call the attention of our readers to the Exhibition of the Miltonian Tableaux at Academy Hall this evening.

THE FALSE ALARM.—At a little past midnight the citizens of our village were awakened by the screaming of the locomotive whistles in the yard; it was the usual fire, sounded on account of a high fire, which the engineers discovered in the village. The light originated from a large pile of burning oil barrels and other combustibles in the Park, which was mistaken for something more serious. This was a sad mistake and one which we hope for the reputation of our quiet village will not again occur. But it would seem that something further must be done intentionally; and at about one o'clock a. m. the church bells were set ringing. While we do not object to all reasonable justifications over election returns, the whole disturbance was premature and out of place, inasmuch as no election returns, by telegraph or otherwise, worthy of any consideration were received here during the night, and none were given out after 9 o'clock in the evening. A worthy citizen truly says that "the false fire alarm, was a very thoughtless, foolish and needless disturbance to the quiet peace of the village," and one which we hope will not be repeated again.

ANOTHER FALSE ALARM.—The Managers of the Railroad at this place, received a tele. ram from their agent at Albany 8:25 a. m., between 10 and 11 o'clock this forenoon, that the Railroad

bridge across Missisquoi Bay was on fire, in a very few minutes the "Frontier" Fire Co. had their engine on board a platform car and was on the way, attached to the first running locomotive "Gov. Smith." On reaching Swanton they ascertained that the bridge watchman had extinguished the fire without further a stance and they returned. The bridge was but slightly damaged and the trains are now running as usual.

A wholesale raid with lags and wagons was made on C. A. Kilburn's orchard in Ashburgh, a few days since, but the thieves were chased so closely that they left the stolen apples behind.

LONGEVITY.—Mrs. Sarah Stiles, of Ferr, Vt. died a few days since, at the advanced age of 102 years, 5 months, 22 days.

The New England Express Company intends to open an office in Battleground, in a few days, the first under the control of that company in this State.

Comic.—Montreal is publishing a comic semi-monthly, called *Punch*, or the *Northern Light*. The Montreal News says that its jokes are good but its pictures poor.

Mr. Geo. Campbell, of Westminster, one of the largest sheep-breeders in Vermont, is, we learn, to send a few of his choice Spanish Merino bucks and ewes to Australia this week, for the improvement of stock in that country.

One hundred and fifty-two head of cattle were seized at Island Pond last week, for being entered at too low a valuation, and fly head at Lyndon for the same cause. A span of horses was also taken from H. W. Baker of Troy, on the 27th ult., for smuggling, but released for want of proof.

THE STARS AND STRIPES.—We notice that the "Stars and Stripes" are floating proudly from the Railroad buildings to day, with the names of Grant and Colfax inscribed thereon. Has anything happened? Where now are the Stars and the Bars?

SMART FELLOW.—A man by the name of Patch was arrested in East Wallingford on Friday afternoon, for stealing a barrel of flour. He had a bearing and was bound over, but on his way to Rutland, in charge of an officer, while between Cuttingsville and Clarendon, he requested permission to retire to the closet. After he had been in the closet a few minutes, the officer thought best to take a survey of the premises, but, finding him all right, returned to his seat.

At out three minutes more elapsed, when, upon another inspection he discovered that there was not a Patch of the individual left. Whether he jumped from the window, or reaching around took hold of the car, swung himself on the steps and then jumped off, is a matter of question. The train went back some two miles, but nothing could be seen or discovered of the missing man. So says the *Herald*.

VERMONT COTTON.—Mr. L. H. Dayton, of Addicks, has been trying the experiment of raising cotton. He planted the seed in April, and, by protecting the young plant with glass, succeeded in bringing it to perfection. The plant attained about a foot in height, and a stalk bore three bolls. It is a good quality of upland cotton, the seed was sent him from Missouri.

"WAS IT HIS LAST JOKE?"—Whether a joke or not, it is a fact learned from one of his executors that Artemus Ward left no money to carry out the provisions of his will. After paying expenses of his sickness and burial, nothing is left.

Artemus was flowing over with wit and humor even in his last moments, and no doubt his will was made partly in fun, and partly to show what he would have done had his funds been sufficient to carry out his wishes.

Before going abroad, he, like a good and dutiful son, left his aged mother in comfortable circumstances. For this thoughtful consideration all honor to his memory and name.

GOLD PAYMEN OF NATIONAL BONDS.—It seems that Secretary McCulloch is not, in opinion, in harmony with the Democratic platform, for he has written to a business house in New York City, in reply to the inquiry, "If there is any doubt about the United States bonds, sixes of 1881, being paid in gold, principal and interest." The secretary says it has been the invariable practice of the Government to pay both the principal and interest of its notes in coin, and he knows of no reason why a different course should now be pursued.

FULTON MARKET.—Just received, a nice lot Dried Beef, Sugar Cured Hams, Bologna Sausage, Sweet Potatoes, Tomatoes, Peas, Peaches, Water Melons and Musk Melons. dtf-94.

New York, August, 7th, 1868.
MR. EDITOR:—Several of your correspondents, very old and respectable, do not seem to be wonderfully excited as to the oil in our PLANTATIONS BITTERS. So long as the Bitters are all that we represent them to be, we do not know that it makes any difference from whom they come, or from whence they originate; but for the information of the public generally and old Capt. Wentz in particular, we will say that he told the truth, and that these Bitters originated in the West India Islands—that many of the ingredients have been favorably used for over a century, but our combination of Chisaya is entirely new, and our own rum and other materials are the same, and as your correspondent says, a better Bitter and Tonic is not made. We recommend them particularly for dyspepsia, liver and gastric debility, loss of appetite, and in all cases where a tonic and stimulant is required.

P. H. DRAKE & Co.,
21 Park Row, N. Y.

MAGNOLIA WATER.—Superior to the last imported German Cologne, and sold at half the price.

MUSICAL INSTRUMENTS.—The piano forte has long been the popular home and concert instrument, yet in point of swelling and sustaining the tones is extremely defective. On account of this deficiency, music written in chords, or in a connected style, cannot be satisfactorily executed, as the long notes result in diminished where they should be sustained. The taste or the Organ and orchestral style of music will supersede the present piano compositions. There are no instruments capable of such fine expressions in this style of music as the AMERICAN ORGANS, manufactured by Messrs. S. D. & H. W. Smith, of Boston. Their delicacy and variety in the voicing renders them susceptible of beautiful orchestral effects, by the skillful use of the tremolo and the improved knee swell which the deep manual sub-bass which is added to the new styles, gives the closest resemblance to the pipe organ.—*London Journal*.

A friend of ours trod on a rusty nail which penetrated his foot for about one inch. He used Renne's Pain Killing Magic Oil thoroughly, and cured it without trouble. This Magic Oil is what every family needs in the house. d&w

WHAT MAKES YOUR HAIR SO BEAUTIFUL? MRS. S. A. ALLEN'S IMPROVED (new style) HAIR RESTORER OR DRESSING, (in one bottle). Price One Dollar. Every Druggist sells it.

BURLINGTON BUSINESS COLLEGE.—The fall term of this College will open October 5th, and continue in session during the year. Our readers will remember that this institution is to be a consolidation of the Bryant and Stratton College at Burlington and the Vermont Commercial College at St. Albans, under the instruction of J. H. Lansley, as proprietor. The new college will open with excellent facilities for young men and young ladies to gain a thorough business education. The rooms are being refitted and renovated, with a view to comfort and convenience. Prof. S. M. Pratt, of the St. Albans College will be one of the instructors.

The Poor Man's Friend.—Doctor's bills are so long for a poor man's pocket, but many of them may be avoided by keeping GRACE'S CELEBRATED SALVE in the cupboard. It is the "precious pot of ointment," curing burns, cuts, scalds, bruises, sprains, wounds, chilblains, chapped hands, &c. Mothers, do not neglect to save your husband's hard-earned money, but purchase a box of this salve, only 25 cts.

Health, Luxury, and Economy,

MAY BE SECURED BY HAVING YOUR

FEATHER BEDS RENOVATED.

THIS is done by a Steam Process, patented Aug. 10th, 1867, and not only makes them clean and whoe as new, which prevents sickness, but relieves each nice from its matted condition, increasing the bulk of the bed ofentimes one-half, thereby rendering them more luxurious. In fact it is everything essential to old or new

FEATHER BEDS.

Destroying all moths, or liability to them, removing all disagreeable scent, (common among new feathers,) and all gummy and glutinous substance from the quilt, thereby preserving them from the effects of our usage.

We would, therefore, say to the citizens of this place that we are among them for a few days, to render them an essential benefit. Our facilities are such that, upon being ordered to do so, we can take and return beds the same day, well renovated and ready for immediate use, for \$2 per bed, including pillow and bolster, if suitable to run with the bed.

Now give us your best or poorest, new or old, provided they are goose or Duck Feathers. We warrant satisfaction or make no charge.
